Scent Work enthusiasts, this is the seminar you have been waiting for! Are you ready to take your training beyond preparing for a traditional Interior, Exterior, Vehicle and Container search? This one-day working seminar will do just that. You and your dog will learn various training techniques designed to help competitors excel in the five Game Classes offered through United States Canine Scent Sports™:

- **Team Spirit**
- **Heap O' Hides**
- **Go the Distance**
- **LudicrousSpeed**
- **Scenting Sweepstakes**

Each Game tests a certain skillset between a dog/handler team. These include the dog's endurance to find multiple hides, their ability to work away from the handler or the speed in which they hunt to name a few. Handlers are also tested in how they work alongside their dog, ensuring searches are thorough yet efficient. Compete in another Scent Work venue? You and your dog will garner skills and knowledge that will help elevate your training to the next level. This seminar will be intensive, with working teams having ample opportunity to practice the skills discussed and auditors able to watch various teams put these skills to work.
